commission

What we did in the first year

15 Nov 17

GamerHash open
beta launched

Mar 18

150.000 users

Jul 18

We raised 250k EUR; valuation
1.5 mln EUR

Dec 18

330 000 users

Jan 18

Every CPU type support
implemented

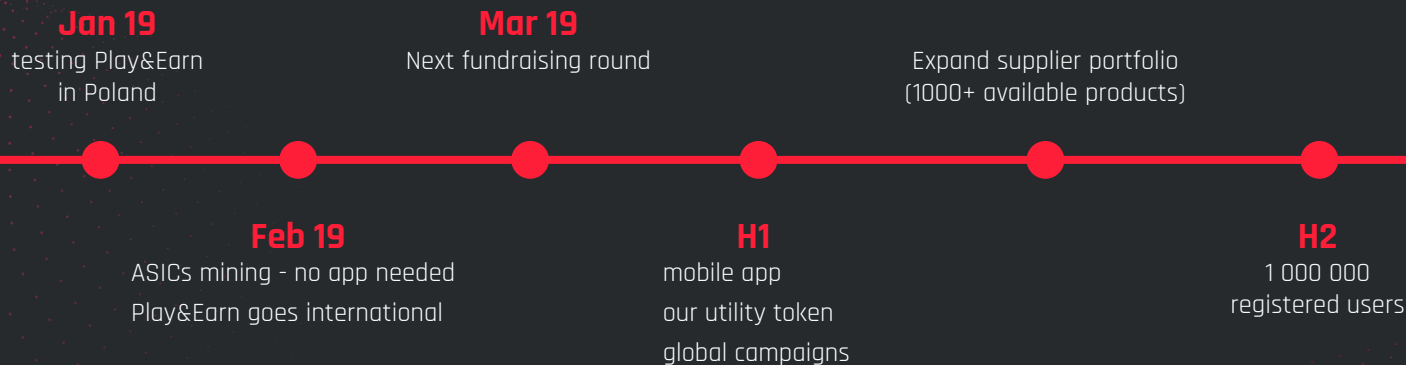

May 18

English-version of the
website

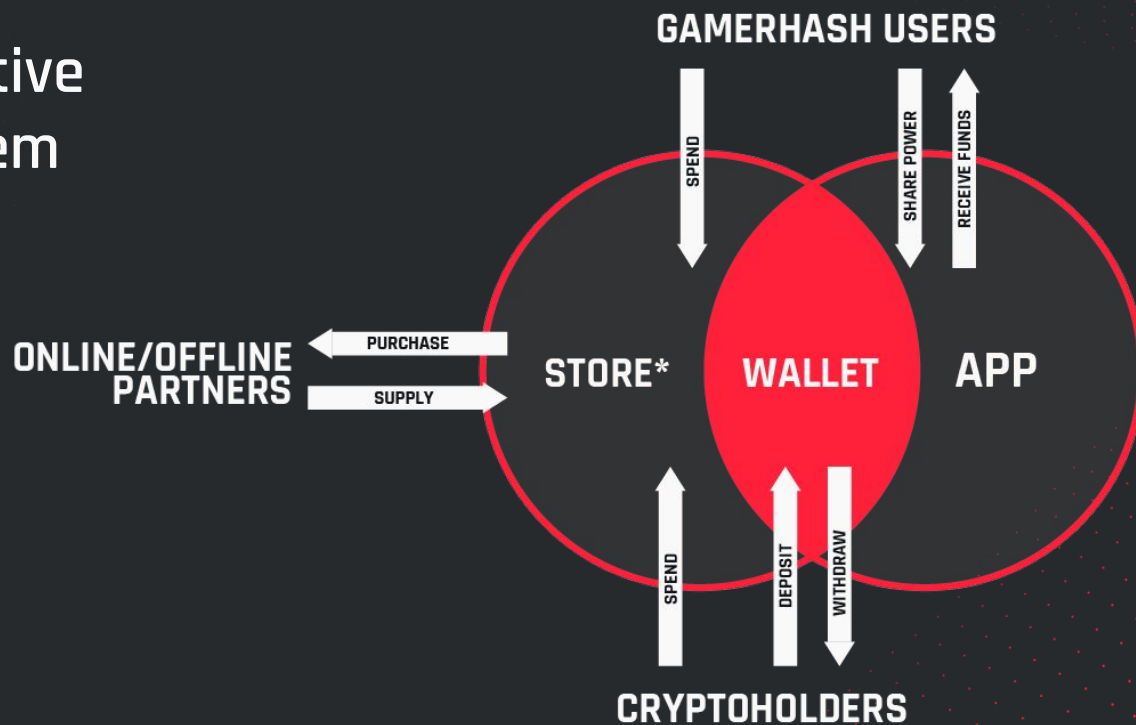

Nov 18

First campaigns
in Brazil

What does the future hold?

Prospective Ecosystem Model

*turned marketplace (Q3/Q4 2019)

The brains behind GamerHash:

Team comprises 15 people with 5 developers on board

Patryk Pusch

Founder & CEO

Has been a serial founder of gaming, affiliative, and VR projects for a dozen or so years. Cryptocurrencies have been present in his life since 2013 when he started building his first mining rigs.

Radek Rosiak

Founder

University graduate with Science and Business degree. Owner of a Los Angeles based business. Blockchain enthusiast. Stock market and crypto investor since 2013.

Adam Iglewski

Head of IT

PHP programmer for 15 years, mainly relational database management systems designed for high user traffic. The biggest fan of Laravel Framework.

Krzysztof Warzecha

Head of Security

Everything he does works, since 2007. Debian and Open BSD work better with his upgrades. Interests: cryptography, low-level Linux, security. Has been a Bitcoin HODLER before it got trendy.

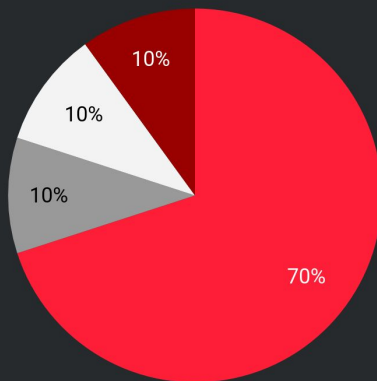

Dawid Wenderski

Senior software engineer

"Any-scale of device" Linux professional. Experienced in the automotive industry where he develops management software and conducts infrastructural projects. Android apps hobbyist.

CoinAxe LLC - shareholder breakdown

Cap table

- Patryk Pusch, Radek Rosiak (founders)
- Paweł Szewczyk (angel, CMO, i-systems.pl)
- Paweł Jaczewski (angel, CTO, i-systems.pl)
- Krzysztof Jaciw (angel, CFO, i-systems.pl)

What we need

Strategic
partner/investor with
blockchain
background

Technology
partners who will
help us monetize
computing power in
other ways than
crypto mining

Partners with
marketable
products,
services, and affiliate
campaigns

Thank you for your attention
